*Michael D. Zagata*  
*Commissioner*

June 12, 1995

Mr. Arthur Gibson  
 Northrop-Grumman Corporation  
 Bethpage, NY 11714-3580

Dear Mr. Gibson:

RE: Grumman Aerospace-Bethpage Facility  
 Site Number: 1-30-003A

This is a follow-up to my June 7, 1995 telephone conversation with Mr. Carlo San Giovanni of Geraghty & Miller, Inc. and my April 27, 1995 letter to you.

A response to the April 27, 1995 letter is not required now that a copy of the groundwater computer model has been made available to the Bethpage Water District. It is my understanding that a copy of the model will be sent to Occidental and to the NYSDEC in the near future. The primary reason each party wanted a copy of the model was so they could evaluate different scenarios and apply other assumptions to the model. Each party will be responsible for evaluating their own scenarios and assumptions and reporting their findings to the entire group.

Please feel free to contact me at (518) 457-3395 if you have any questions regarding this matter. Thank you for your assistance in this matter.

Very truly yours,

*John D. Barnes*  
 John D. Barnes, P.E.  
 Environmental Engineer 2  
 Bureau of Eastern Remedial Action  
 Div. of Hazardous Waste Remediation
